# Subject Index

## A

Abscess, 659  
 Acanthosis nigricans, 328  
 Acetylcholine  
   cardiomyopathy marker, 231  
   stimulation of insulin release, 198  
 Acute metabolic acidosis, 847  
 Acyl-CoA:cholesterol acyltransferase, 604  
 Adenine nucleotide translocator, 1377  
 Adenosine effect on pancreas, 1291  
 Adenylate cyclase, phosphatidic acid effects, 1187  
 Adipocytes  
   insulinlike growth factor I, 1217  
   obese rate of glucose transport, 991  
   prostaglandin  $I_2$  production, 1123  
 Adoptive transfer, 447  
 Aging effects on insulin secretion, 1549  
 Albumin permeation, 1258, 1484  
 Albuminuria, 981  
 Aldose reductase inhibitors  
   ascorbic acid pathways, 257  
   glomerular abnormalities, 981  
   hemodynamic and vascular changes, 1258  
   kidney, 1067  
   neuropathy pathogenesis, 839  
   nerve edema prevention, 1469  
   neuropathy treatment comparison, 832  
   ponalrestat effects on rat retinas, 1181  
   sorbitol effects, 569  
 Alkalosis, 847  
 Allograft rejection, islet protection, 379  
 Allotransplantation, 146  
 Alloxan-induced diabetes in rabbits, 1484  
 Amino acid, infusion and glomerular filtration rate, 75  
 Amylin, 1333  
   antigen, 64K, 1133  
 Antidepressants, 1161  
 Anti-single-stranded-DNA antibodies, 718  
 Apolipoprotein gene, Chinese Americans, 17  
 Arachidonic acid, 1123  
 Ascorbic acid, 257, 1036  
 Aspirin effects on retinopathy, 491  
 Atherogenesis, 117  
 Atherosclerosis  
   chylomicrons effect, 141  
   like lesions, 91  
 ATP-sensitive  $K^+$  channels, 416, 422  
 Autonomic function tests, 589  
 Autoregulation of renal blood flow, 1109  
 Azathioprine, 779

## B

Baboons, 925  
 BB rat. *See* Rats  
 Blood  
   flow, aldose reductase inhibitor effects, 1258  
   -nerve barrier permeability-surface area product, 1469  
   viscosity, fish oil effects, 1412  
 Body fat distribution, 304  
 Bone marrow transplantation, 894  
 Brain  
   counterregulation of hypoglycemia, 7  
   somatostatin accumulation, 752

## C

$Ca^{2+}$   
   cAMP rise effect, 874  
   insulin release  
     acetylcholine stimulation, 198  
     voltage-dependent channels, 188  
     phosphatidic acid effects, 1187  
 Caco-2 cell line, 604  
 Calmodulin, 84  
 cAMP metabolism  
   HIT cells, 44  
   increase effect on  $Ca^{2+}$  influx, 874  
 Capillary  
   basement membrane, 854  
   thickness, 1245  
   density, 854, 1245  
 Carbamol-enhanced insulin release, 1337  
 Carbohydrates, kidney function and structure, 679  
 Carcinoid tumors, 667  
 Cardiomyopathy  
    $\omega$ -3 fatty acid effects, 969  
   markers, 231  
   preinfarction risk factors, 350  
 Cardiovascular disease, risk factors, 504  
 Carnitine palmitoyltransferase, 65  
 Catecholamines  
   decreased with posture change, 938  
   ketone bodies, 454  
   lipolysis, 524  
   sympathochromaffin activity, 405  
 $\beta$ -Cell  
   cAMP rise effects, 874  
   deficiency, insulin and glucagon pulse amplitude decrease, 925  
   depolarization,  $Ca^{2+}$  channels, 188  
   electrical activity, 416

encephalomyocarditis virus effects, 1103  
 function, 1056  
   insulin secretion, 673  
   islet cell antibodies, 1396  
   interleukin 1 concentration, 1211  
   high-glucose effects on insulin secretion, 1417  
   MHC molecule hyperexpression, 815  
   pancreas, compensatory growth, 49  
   retinoid effects, 1544  
 Cellular retinoid-binding proteins, 1544  
 Ceruletide,  $\beta$ -cell secretory responsiveness, 1042  
 Children, azathioprine effects, 779  
 Chinese Americans, 17  
 Cholecystokinin-enhanced insulin release, 1337  
 Cholesterol  
   effect of growth factors on retention, 117  
   ester synthesis and secretion, 604  
   free, high-density lipoprotein abnormalities, 1226  
   gastroctomy, 219  
   synthesis, 141  
 Chylomicrons, 141  
 c-myc, cellular growth, 123  
 Collagen production, 758  
 Compensatory growth, glucose infusion, 49  
 Confocal microscopy, 808  
 Coronary artery disease and insulin, 1175  
 Cortisol and growth hormone effect on insulin resistance, 1357  
 C-peptide secretion, 698  
 Cross correlation, 589  
 Cross-reactivity, 718  
 Cryopreservation  
   human fetal pancreas, 448  
   human islet storage, 386  
 Cyclophosphamide-induced diabetes, 441, 1492  
 Cyclosporin  
   effect on T-lymphocyte parameters, 249  
   insulin secretion, 465, 698  
   multiple sclerosis, 58

## D

Dawn phenomenon, 273, 1193  
 Deep breathing, 589

## DIABETES: VOLUME 38 (1989) PAGE NUMBERS BY ISSUE

# SUBJECT INDEX 1989

- Deferoxamine therapy, 1207  
Dendritic cells, 1623  
Desferrioxamine, islet protection, 379  
Diabetic macroangiopathy. See Macroangiopathy  
Diacylglycerol, endothelin effects on, 1643  
Diet  
  fiber effects on glucose/lipid levels, 1528  
  maternal Zn intake, 1282  
  treatment effects, 262  
Dimethyl sulfoxide, modulation of onset, 194  
Dipyridamole and aspirin in retinopathy, 491  
Disease-association studies, 947  
Diuresis, 278  
DMSO. See Dimethyl sulfoxide  
Dogs  
  cyclosporin effects, 698  
  exercise-induced glucagon rise, 799  
  insulin fall, 484  
  hypoglycemia, 7  
  leucine metabolism, 847  
  pancreatectomy, 861  
  partial, 1082  
Duct obliteration, 1082  
Dystrophy, neuroaxonal, 569
- E**  
ELISA. See Enzyme-linked immunosorbent assay  
Embryopathy, 70  
Encephalomyocarditis virus, 316, 1103  
Endothelial cells  
  adipocyte-released arachidonic acid, 1123  
  insulinlike growth factors, 710  
  number, 1245  
  permeability in rabbit hearts, 1484  
  production of endothelin, 1200  
Endothelin effects in retinal capillary pericytes, 1643  
Endothelium and high-glucose exposure, 212  
Enzyme-linked immunosorbent assay (ELISA)  
  displacement comparison of insulin autoantibodies, 1275  
Epinephrine  
  increased sensitivity to, 405  
  inhibited glucose absorption, 410  
Epitope presentation, 868  
Erythrocytes  
  ascorbic acid, 1036  
  glucose homeostasis, 410  
  membrane lipid peroxidation, 1539  
  Na<sup>+</sup>-pumping activity, 825  
  vitamin B<sub>6</sub> effects, 881  
Ethnic groups  
  Chinese Americans, 17  
  Hispanics, 123  
  Mexican Americans, 975  
  Nauruans, 1602  
  Pima Indians, 435, 1423  
Exercise  
  capillary basement membrane thickness, 854  
  fall in insulin, 484  
  glucagon increase, 799  
  lipolytic response, 524
- F**  
Fat feeding, 499  
 $\omega$ -3 Fatty acids  
  cardiac performance and plasma lipids, 969  
  fish oil effects  
    atherosclerotic disease, 539  
    glucose and lipid metabolism, 1314  
    hyperglycemia, 1402  
    lipid values and hemorheological parameters, 1412  
Fatty acids, free  
  evening insulin, 580  
  insulin resistance, 906  
  lipolysis regulation, 1595  
  metabolism and exercise, 484  
d-Fenfluramine, 499  
Ferritin, 1207  
Fish oil. See  $\omega$ -3 fatty acids  
Free fatty acids. See Fatty acids, free  
Free radicals, islet protection, 379
- G**  
Galanin, 1114  
Ganglioside, 1012, 1478  
Gastroctomy, 219

October, 1203-1331  
 November, 1333-1500  
 December, 1501-1651

# SUBJECT INDEX 1989

- Small intestine  
gastrectomy, 219  
hypercholesterolemia, 141
- Somatostatin  
analogue effects, 704  
 $\beta$ -cell activity inhibitor, 1211  
glucagonlike peptide I effects, 1534  
insulin resistance, effect on, 1357  
tissue-specific alterations, 752
- Somogyi phenomenon, 1193
- Sorbinil, 569  
glomerular structure, 839  
myo-inositol metabolism, 996
- Sorbitol, 1036
- S6 phosphorylation in pancreatic acini, 544
- Streptozocin-induced diabetes mellitus  
baboons, 925  
mice, fish oil effects, 1402  
rats  
adenosine effects in pancreas, 1291  
aldose reductase inhibitor effects, 569, 981, 1258  
ascorbic acid metabolism, 257  
autoregulation of renal blood flow, 1109  
catecholamines effect, 906  
 $\beta$ -cell secretory responsiveness, 1042  
 $\omega$ -3 fatty acid effects, 969  
glucose conversion to lactate, 237  
glyburide effects, 205  
growth hormone effects, 428  
heparan sulfate, 130  
hepatocytes, vanadate effects on, 793  
insulin prevention of receptor-effector coupling, 1611  
ketoacidosis and prostacyclin production, 1585  
mediobasal hypothalamus changes, 471  
neonatal streptozocin, 610  
neuropathy, 832, 959  
neuropeptide Y concentrations, 321  
parotid salivary gland function, 1381  
peripheral neuropathy, 730  
pregnancy and interrupted insulin, 764  
proteolysis of skeletal muscle, 1117  
renal aldose reductase activity, 1067  
somatostatin accumulation, 752  
thyrotropin secretion, 1301, 1351  
urinary bladder dysfunction, 278  
vanadyl treatment, 1390  
vasopressin, 54
- Streptozocin-induced insulinitis  
inhibition with lobenzarit, 558  
islet protection, 379
- Sucrose intake and kidney function, 679
- Sulfonylureas  
effect on insulin secretion, 422  
glucose utilization of skeletal muscle, 1343  
glyburide, glucose transport, 205
- Suppression, 441
- T  
Teratogenesis, 1063, 1282  
Thrombin, high-glucose effects, 212  
Thymic hormones, 932  
Thromboxane synthetase inhibitors, 1469  
Thyrotrophs, 1301  
Thyrotropin-releasing hormone, 1301, 1351
- T-lymphocytes  
abnormal and prediabetic screening, 1462  
cyclosporin effects, 249  
interleukin 2 production, 310  
prevention of diabetes  
cyclophosphamide-induced, 1492  
injection of autoreactive, 1647
- Tolbutamide, 416
- TPA,  $\beta$ -cell secretory responsiveness, 1042
- Transfusion, spleen cells, 24
- Transplantation  
human fetal pancreas, 448  
islets of Langerhans, 244  
cryopreservation, 386  
kidney, 516  
rat islet tissue, 146  
reciprocal allogeneic bone marrow, 894
- Tricyclic antidepressants, 1161
- Type I diabetes. See Insulin-dependent diabetes mellitus
- Type II diabetes. See Non-insulin-dependent diabetes mellitus
- Tyrosine hydroxylase activity, 959
- U  
Urinary  
bladder function, 278, 1023  
protein excretion, 1258
- V  
Vanadium  
vanadate effects on hepatocytes, 793  
vanadyl, long-term effects, 1390
- Vasopressin  
effects on hepatocytes, 793  
secretion in rats, 54
- Virus-induced diabetes, 316
- Vitamin B<sub>6</sub>, 881
- W  
WHO criteria for impaired glucose tolerance, 1630
- Y  
Yolk sac insulin, 39
- Z  
Zinc, 932

## DIABETES: VOLUME 38 (1989) PAGE NUMBERS BY ISSUE

January, 1-139  
February, 141-271  
March, 273-404

April, 405-538  
May, 539-669  
June, 671-814

July, 815-945  
August, 947-1075  
September, 1077-1202

October, 1203-1331  
November, 1333-1500  
December, 1501-1651
